

Elp - Documentation

Local Review Site Script

Provenlogic - 19 July 2014

Installation

- If you are using shared hosting, then extract *yelp-shared-hosting.zip* in your root folder.
- If you are using VPS or Dedicated hosting, then extract *yelp-vps.zip* and create a virtual host pointing to `<<path-to-elp>>/public`.
- Execute the *yelp.sql* in your database
- Goto *app/config/database.php* and add your database credentials.

```
1 <?php
2
3 return array(
4
5     'fetch' => PDO::FETCH_CLASS,
6
7     'default' => 'mysql',
8
9     /*
10      |-----
11      | Database Connections
12      |-----
13      | Currently, We support only mysql. Enter your MySql database credentials below.
14      |-----
15      */
16
17     'connections' => array(
18
19         'mysql' => array(
20
21             'driver' => 'mysql',
22             'host' => '', // Host Name
23             'database' => '', // Database Name
24             'username' => '', // Database Username
25             'password' => '', // Database Password
26             'charset' => 'utf8',
27             'collation' => 'utf8_unicode_ci',
28             'prefix' => '',
29
30         ),
31
32     ),
33
34     'migrations' => 'migrations',
35
36     'default_profile_pic' => 'default.jpg'
37 );
```

- Goto *app/config/app.php* and add your application url.

```
1 <?php
2
3 return array(
4
5     /*
6     |-----
7     | Application Debug Mode
8     |-----
9     |
10    | When your application is in debug mode, detailed error messages with
11    | stack traces will be shown on every error that occurs within your
12    | application. If disabled, a simple generic error page is shown.
13    |-----
14    */
15
16    'debug' => false,
17
18    /*
19    |-----
20    | Application URL
21    |-----
22    | Enter your Application URL here
23    |-----
24    */
25
26    'url' => 'http://example.com/',
27
28    /*
29    |-----
30    |
```

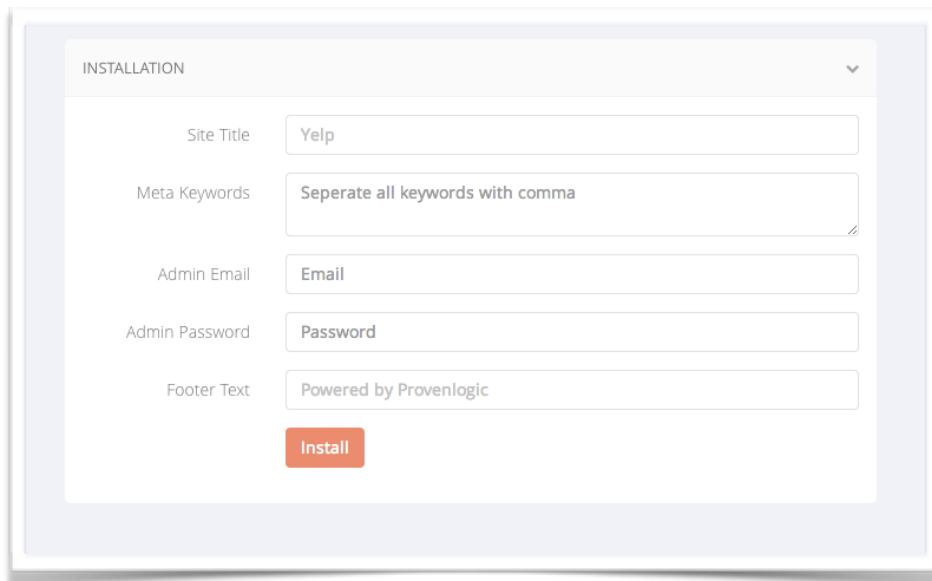

- Goto *app/config/paypal.php* and add your paypal username, password and signature. To make real payment, Please change the value of test mode to **false**.

```
1 <?php
2
3 /*
4 Signup for a paypal developer account and enter the credentials here.
5 */
6
7 return array(
8     'username' => '', // Paypal Username
9     'password' => '', // Paypal Password
10    'signature' => '', // Paypal Signature
11    'testmode' => true
12 );
```

- Goto *app/config/services.php* and add your mandrill api key

```
1 <?php
2 return array(
3
4     'mandrill' => array(
5         'secret' => '', // Mandrill API Key
6     )
7
8
9 );
```

- Then goto <http://example.com/admin/install> to complete the installation.

A screenshot of a web application's installation configuration page. The page has a light gray header with the title "INSTALLATION" and a dropdown arrow. Below the header, there are five form fields, each with a label and a text input box. The first field is "Site Title" with the value "Yelp". The second field is "Meta Keywords" with the value "Seperate all keywords with comma". The third field is "Admin Email" with the value "Email". The fourth field is "Admin Password" with the value "Password". The fifth field is "Footer Text" with the value "Powered by Provenlogic". At the bottom of the form, there is an orange "Install" button.

INSTALLATION

Site Title: Yelp

Meta Keywords: Seperate all keywords with comma

Admin Email: Email

Admin Password: Password

Footer Text: Powered by Provenlogic

Install

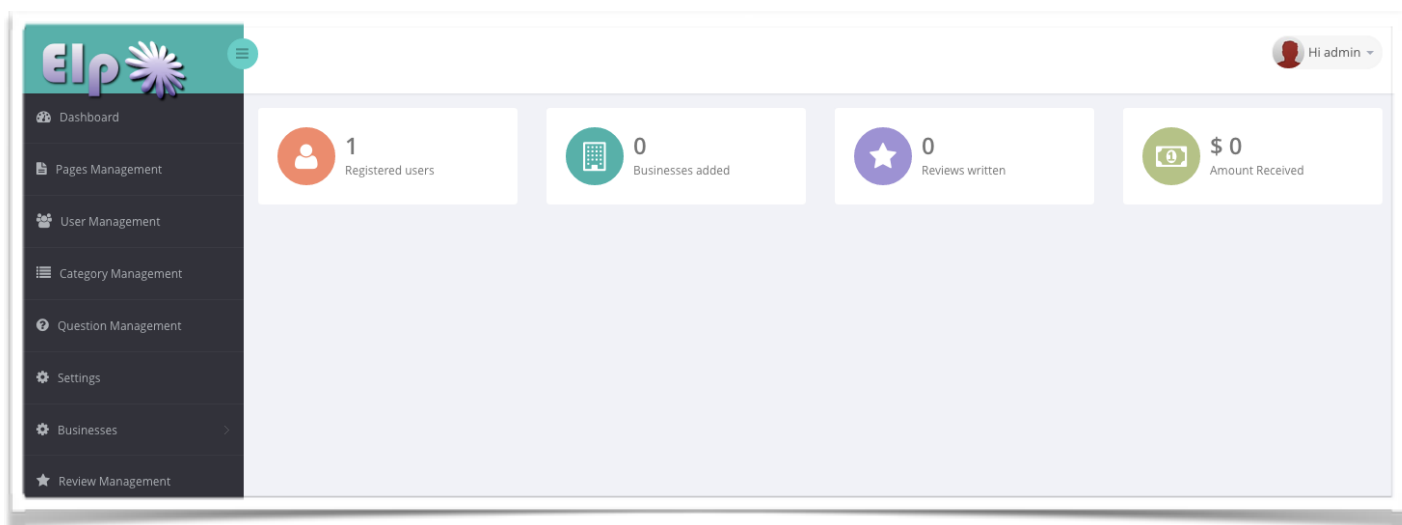

- After Installing, You will be redirected to the admin dashboard.

Admin Panel

In admin panel, You can see various options in the left sidebar. Here, We have explained all options in the following chapters.

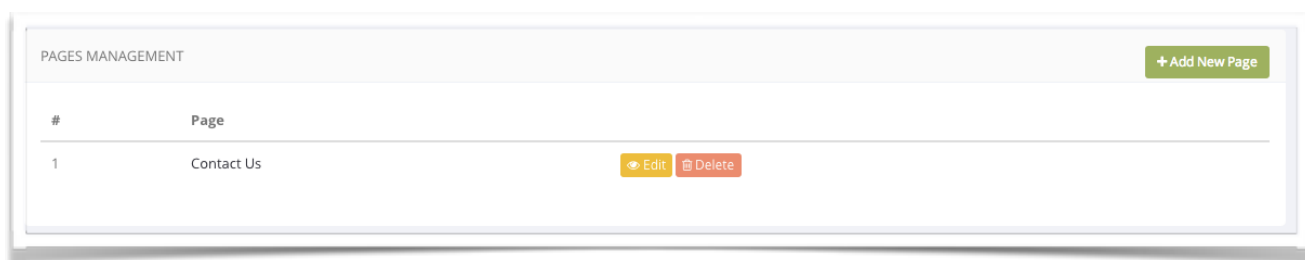

Dashboard :

Here you can view the number of registered users, number of businesses added, number of reviews written and amount received.

Pages Management :

You can create static pages here. Click **Add New Page** button in the right top corner to add a new page.

- All the static pages created here will be listed in the footer of all the pages.
- Click Delete button to delete the page from footer.
- Click Edit button to add content to the particular page.
- Here you can edit the Title of the page and the content of that page.

Advertisement Management

Hi

USER MANAGEMENT

#	Name	Status	Email-ID	
2	sri raman	Not Activated	sri.smartkiller@gmail.com	<div><div>Delete</div><div>Suspend</div><div>Ban</div><div>Activate</div></div>

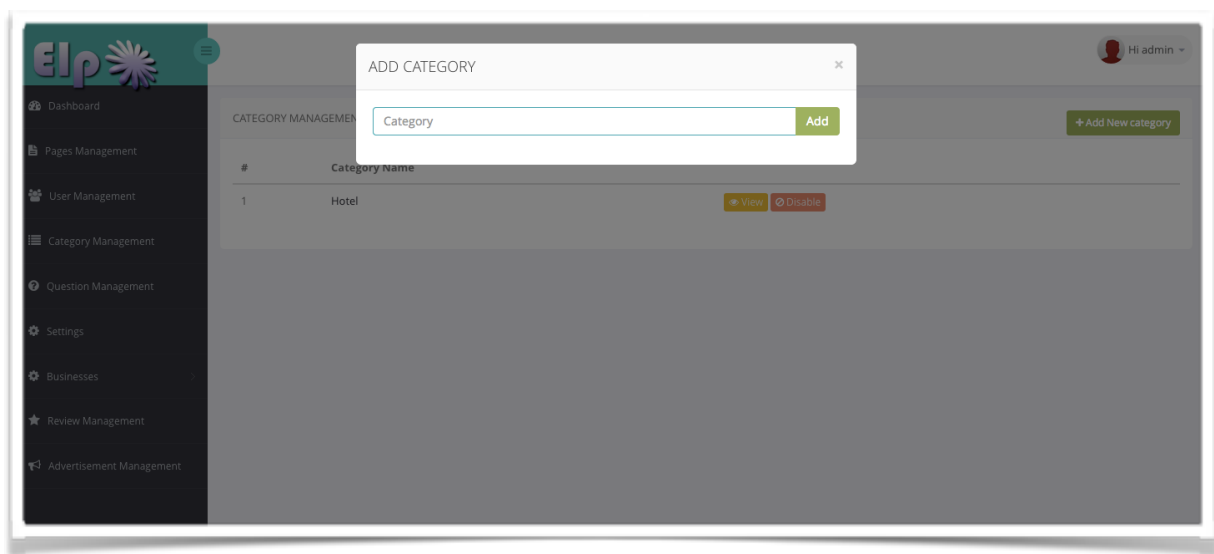

- Admin can activate a user if the user didn't activate the account.
- Admin can delete a user.

- Admin can Suspend a user. (If a user is suspended, then the user cannot log into the account for next 1 hour.
- Admin can ban a user (If a user is banned , then the user cannot login permanently until the admin can unbar the user manually. The same user can't register again with the same email id)

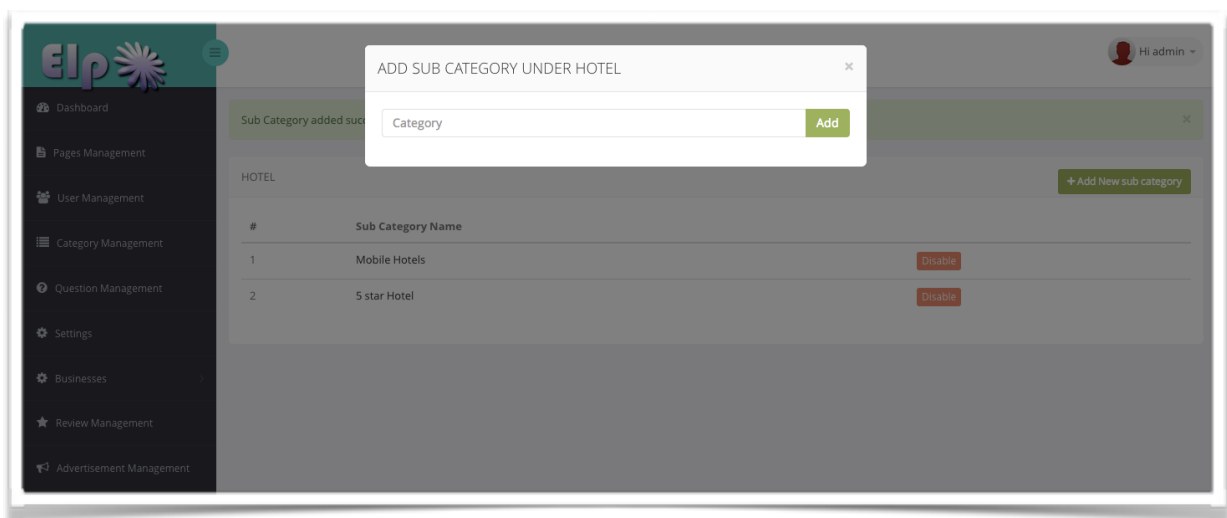

Category Management :

Admin can create category and sub categories here.

- Click the 'Add New category' button in the top right corner to create a new category.

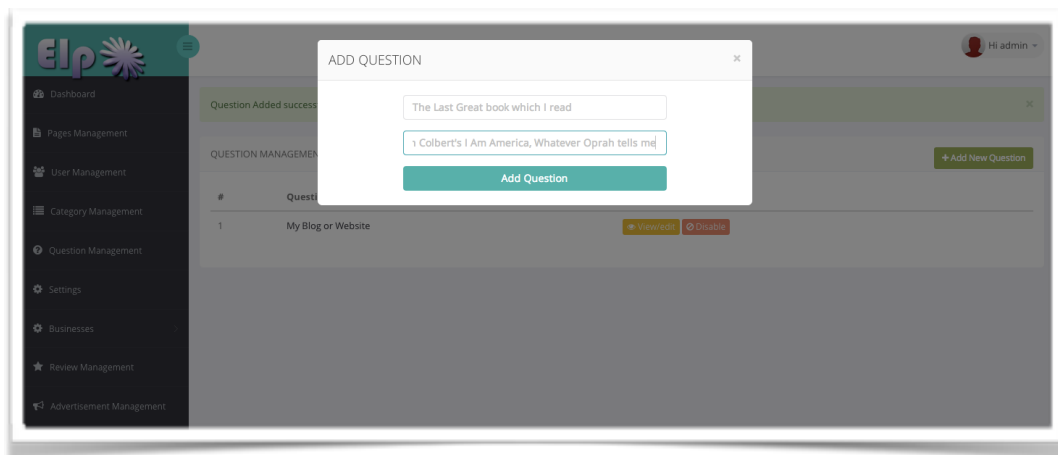

- After adding a new category. Click the View button to create sub categories under the master category.

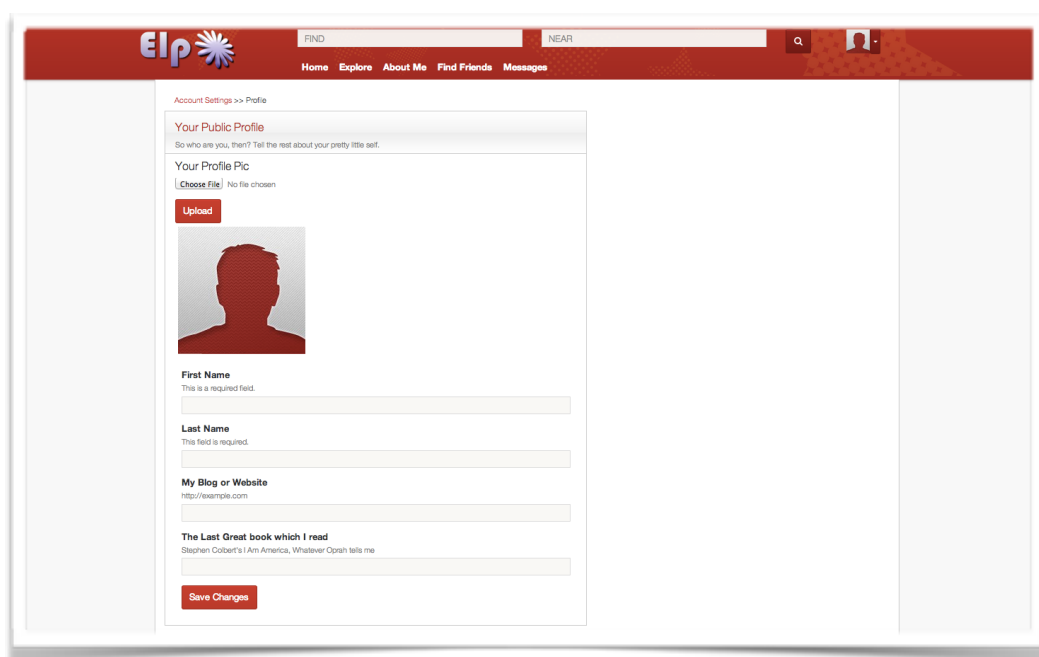

- Create sub category by clicking the 'Add New sub category' button in the top right corner.
- You can't delete any categories or sub categories, since that may affect the business linked to those categories or sub categories. But, Admin can disable that category or sub category. Therefore, No one can create a business with those category or sub category. Businesses created with those category or sub category before disabling will not be affected.

Question Management

You can add questions here to ask the registered users in your site. You can add description along with the question here.

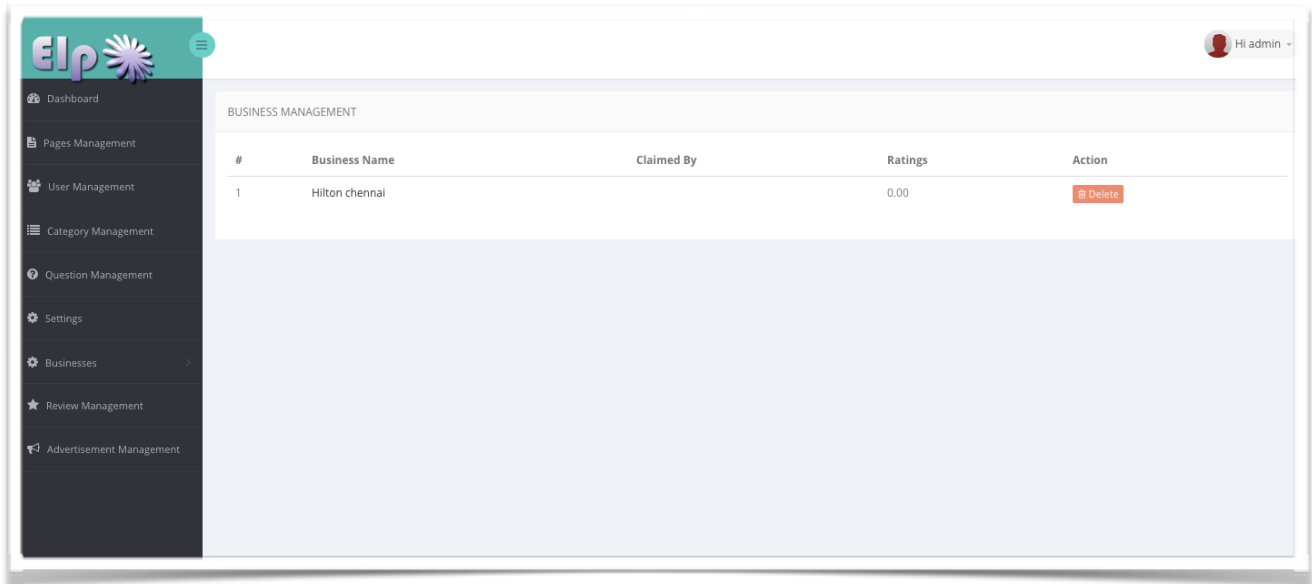

These questions will be displayed to the registered users like follows :

Business Management :

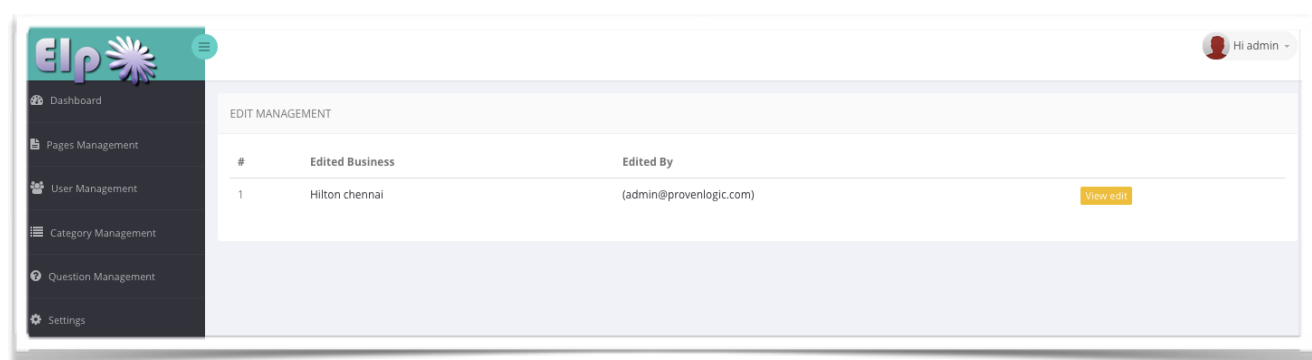

If any registered user create a business, then it will be listed here. All the business added to the site will be shown here.

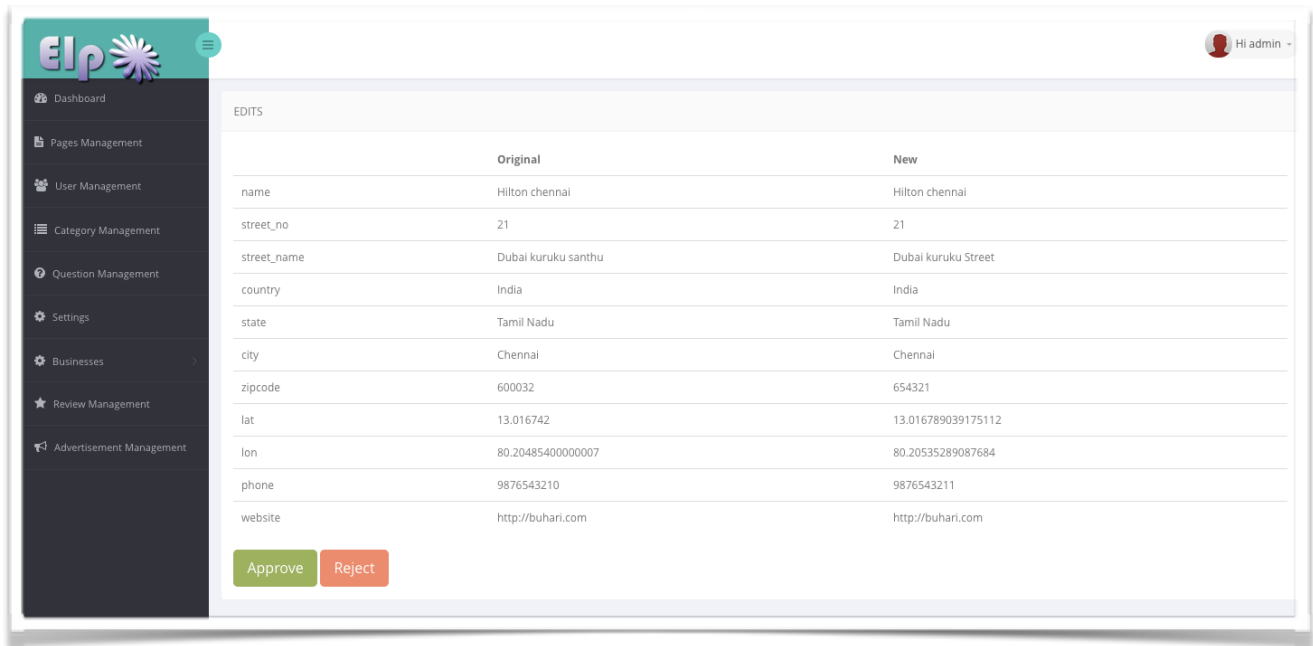

Admin can delete the business here by clicking the delete button near the business.

Reported Edits management :

If any user edits a business data, then the changes will be listed in the business edit management page.

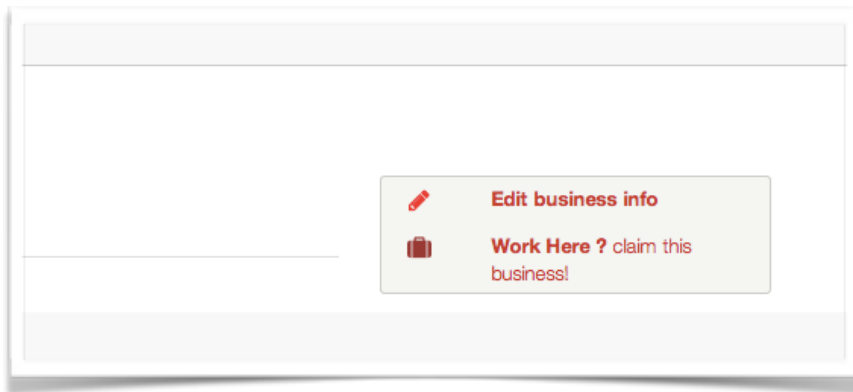

You can check the changes made by the user by clicking the “view edit” button. You can approve or reject the reported edit by the user in that page.

The screenshot shows the ELP Admin Dashboard with a sidebar menu on the left containing: Dashboard, Pages Management, User Management, Category Management, Question Management, Settings, Businesses, Review Management, and Advertisement Management. The main content area is titled 'EDITS' and displays a comparison table between 'Original' and 'New' data for a business listing. At the bottom of the table are 'Approve' and 'Reject' buttons.

	Original	New
name	Hilton chennai	Hilton chennai
street_no	21	21
street_name	Dubai kuruku santhu	Dubai kuruku Street
country	India	India
state	Tamil Nadu	Tamil Nadu
city	Chennai	Chennai
zipcode	600032	654321
lat	13.016742	13.016789039175112
lon	80.20485400000007	80.20535289087684
phone	9876543210	9876543211
website	http://buhari.com	http://buhari.com

Business Claims :

If anyone claim a business by clicking the 'Work here ? Claim this business' link in the business page. Then they will get the message as **Your Claim has been sent for approval.**

Admin can manage these claim requests in the 'Business Claim' page. Admin can approve / Reject this request through this panel.

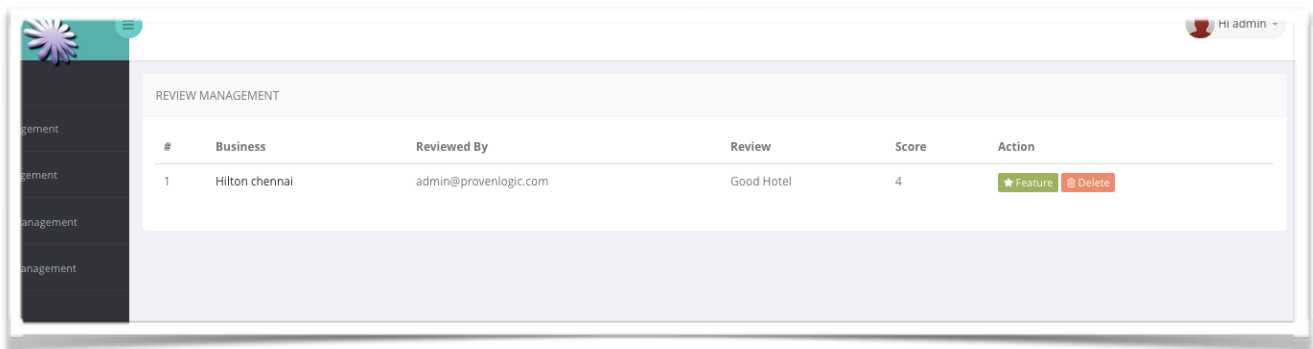

The screenshot shows the 'CLAIM REQUESTS MANAGEMENT' page with a table listing claim requests. The table has columns for '#', 'Business', 'Claim Requested By', and 'Action'. There is one row showing a claim for 'Hilton chennai' requested by 'admin@provenlogic.com'. At the bottom of the table are 'Approve' and 'Reject' buttons.

#	Business	Claim Requested By	Action
1	Hilton chennai	admin@provenlogic.com	Approve Reject

If you approve the business claim request, Then the User who claimed this business can feature his/her Business , Edit Business Hours and Edit More info. The changes done by the business owner will be approved automatically.

Reviews Management :

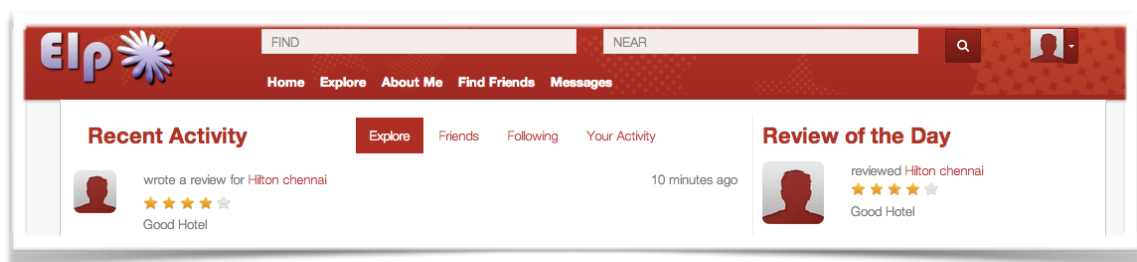

All the reviews by the registered users will be listed in reviews management. So, Admin can delete the any review through this page.

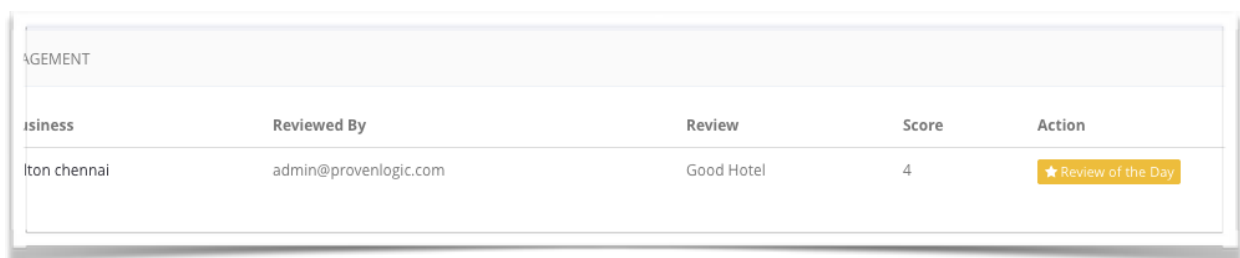

#	Business	Reviewed By	Review	Score	Action
1	Hilton chennai	admin@provenlogic.com	Good Hotel	4	★ Feature Delete

Review of the day :

Review of the day will be displayed in the home page of the help like in the following picture.

A review in the review management page can be made as review of the day by clicking the 'feature' button near the particular review.

Business	Reviewed By	Review	Score	Action
Hilton chennai	admin@provenlogic.com	Good Hotel	4	★ Review of the Day

Monetization Option :

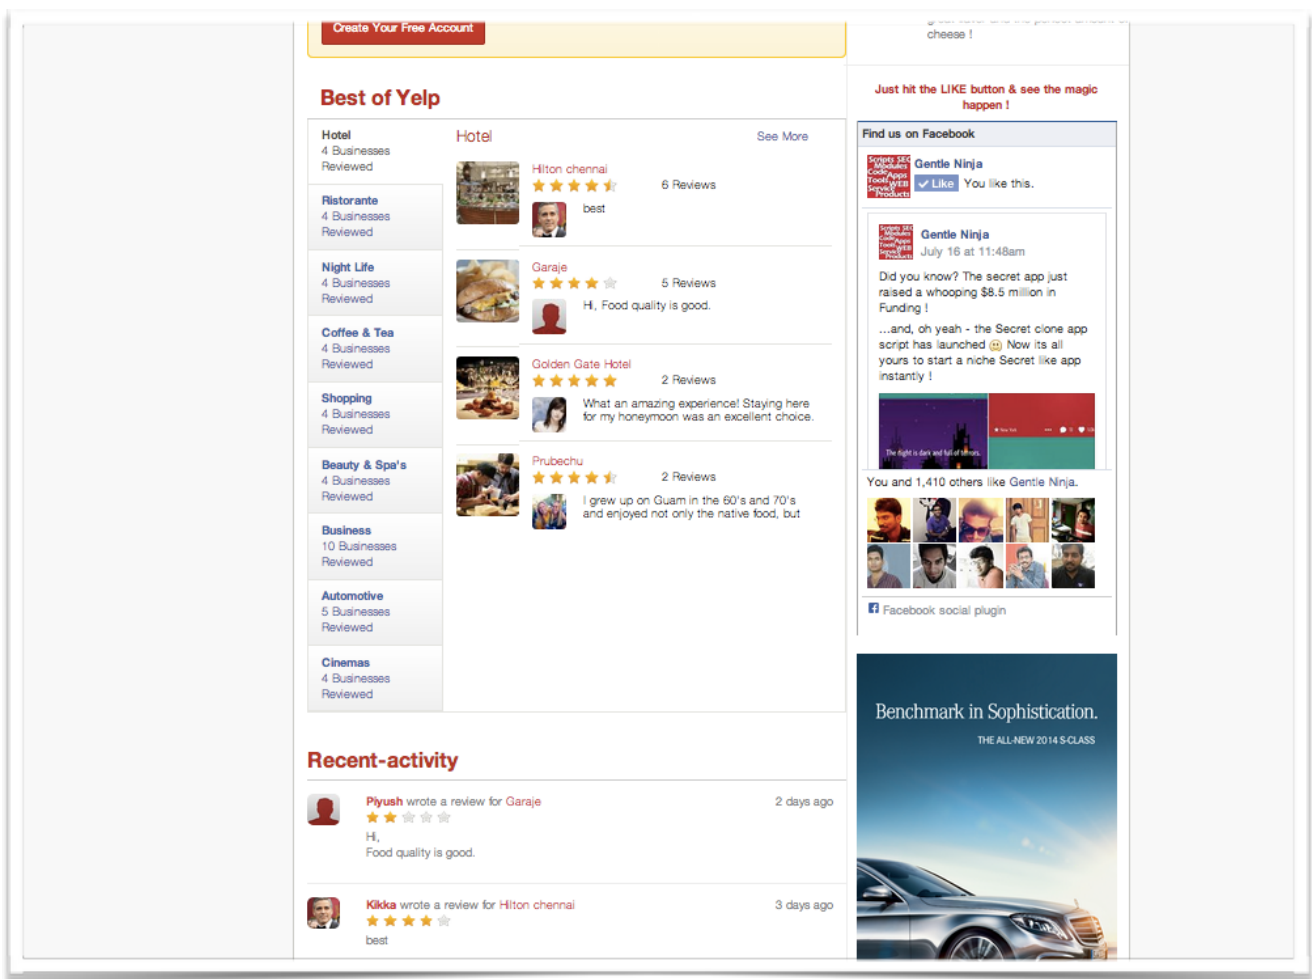

There are two types of monetisation in our Elp script. They are

- Banner Advertisement
- Featured Business

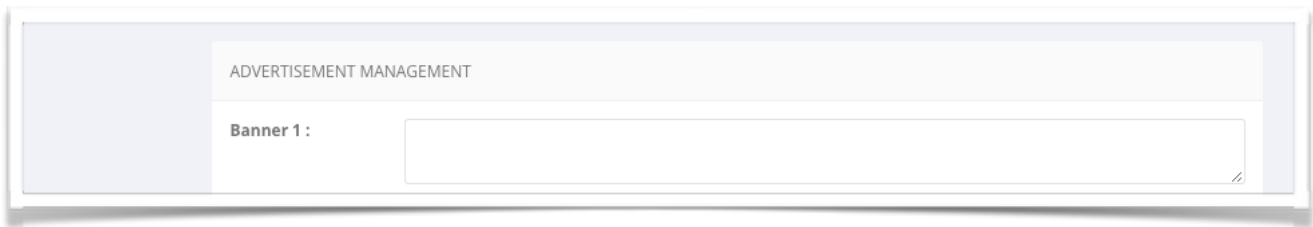

Banner Advertisement :

Banner Advertisement can be done manually only. Admin can use this space for anything. We gave option to add HTML content here. If the admin don't want to display any advertisement in this space. Then they can use it to add their Facebook likebox, Poll options etc.,

Banner will be displayed in the sidebar of the home page, category page, city page and other search pages in our script.

Admin can add the HTML code for this page in the advertisement management page (Banner 1).

The screenshot shows a web interface for 'ADVERTISEMENT MANAGEMENT'. It features a light blue sidebar on the left. The main content area has a header with the title 'ADVERTISEMENT MANAGEMENT'. Below the header, there is a label 'Banner 1 :' followed by a large, empty text input field for entering HTML code. A small icon is visible in the bottom right corner of the input field.

Featured Business :

Our registered users can feature their business by paying certain subscription fees every month. Featured Business will be shown in the top of the search list. The amount to be paid every month to make their business as featured advertisement can be set by the admin in the advertisement management.

The screenshot shows a web interface for setting the 'Featured Ad cost'. It features a light blue sidebar on the left. The main content area has a label 'Featured Ad cost :'. To the right of the label is a text input field containing the value '10'. To the left of the input field is a yellow box with a dollar sign '\$', and to the right is a yellow box with the text '/month'. Below the input field is a green button labeled 'Save Changes'.

Admin also can view the Purchase history here.

Thank you,
